Subject: RE: Blades: PFAS Update

I would have the consult closer to the sampling event. I would include Mike Towle, Eduardo, Stepan, Charlie, yourself, myself, Linda Gaines (OSRTI) and Brian Schieger (OEM)

1. Eduardo Rovira has been involved with this site in the past because of the emergency response/sampling of residential wells during the Site Assessment.
2. Currently I am going through the RAF process for selecting a contractor. One of the first actions I will have once this is in place is sampling residential wells. The Site will likely be listed September 3rd. I doubt our contract will be in place by then however.
3. Should we be having a follow up meeting now, or wait until closer to sampling? If so, who is the proper contacts?

Has an OSC been assigned?

When are you targeting the sampling?

Follow-up OSRTI/OEM consult reqd

Thx for that update Dan. My guess is that we will provide them a credit as part of the SSC?

Subject: Blades: PFAS Update

Hey Joe,

Wanted to keep you in the loop on PFAS at Blades. On Monday, Charlie had a meeting with his State counterpart at Delaware. When we sample residential wells (we will be sampling for SVOC/VOCs, inorganics, PFAS, hex chromium, etc.) those grey areas where PFAS is a concern, but the other contaminants do not trigger a response by EPA, or PFAS is below an action level for EPA, DNREC will assist with the response and will keep a tab on the funds they use to do this.
